

# The right gas probe for every job

For every measurement task  
Schütz has the right tool.  
The gas probe range from Schütz  
offers you:

- a great choice from a wide range of products
- high-quality workmanship and robust construction
- field-tested technology that meets the demands

# Position-fixing gas leaks with fieldtested probing technology

Suitable measurement systems must be put into place to ensure precise determination and measurement of gas escapes in both open and closed areas.

Schütz offers the right tool for all different kinds of gas measurement tasks.

Carpet probes, bell probes, spatial probes and many specialised variations are all included in our delivery program.

Equipment from Schütz has been proven in daily usage for many years, and is continually developed further to meet the latest standards and knowledge.

Carpet probe

Bell probe

Borehole probe

The name Schütz has been synonymous with innovative gas measurement and detection technology for almost forty years.

Schütz guarantees quality and reliability as product development, production and quality assurance are carried out in-house.

Schütz Messtechnik holds ISO 9001:2000 quality management certification, ATEX approval and the German Association of Gas and Water Professions G 468-1 certificate.

Trench probe

Telescopic probe

up to 150 cm

Spatial probe
